Who am I?

I have over eleven years of experience in technology and six years in Software Development.
I started coding as a Full Stack Web Developer using LAMP (Linux, Apache, MySQL, and PHP) and JQuery. Then I went to C# until I found the language that has excited me most for over three years now: Go (Golang).
I have a degree in Computer Science from Universidade Nove de Julho (UNINOVE, São Paulo).
Curious and always willing to learn and experiment, with a taste for technology and a keen team player.

Bring on the challenge! I have a growth mindset and believe that I can learn everything. I am eager to expand my skill set and tackle new tasks enthusiastically.

Hugo Virgílio

SOFTWARE DEVELOPMENT ENGINEER

SOFTWARE DEVELOPMENT ANALYST JR (C#)

IAudit Consultoria – 04/2019 to 06/2019
